

MRI Research Experiments at Florida State University

If you :

- Are between the ages of 18 and 30 years old
- Are able to be scanned using magnetic resonance imaging (MRI)
- Are right-handed
- Are a native English speaker or fluent in English by the age 6
- And do not have any neurological disorders

Then, you may be eligible for a Florida State University research study on memory!

The experiment takes 1- 2 hours and eligible participants will be compensated \$15 per hour plus a performance-based bonus.

If you are interested in participating, please contact the Nee Lab at **(850) 645-4066** or email us at **neesubjects@psy.fsu.edu**
