K2R Scholar Program

As part of the National Institutes of Health Clinical and Translational Science Award (CTSA), a partnership between Florida State University and the University of Florida (UL1TR001427), the Florida State University K2R Scholar Program provides an opportunity for our early stage investigators (K2R Scholars) to receive guidance, training, and support in submitting excellent applications.

The K2R Scholar Program website has information and resources for Florida State University researchers applying for NIH Research Career Development Awards (K-series grants), including detailed descriptions and links to funding and training opportunities.
