

SEEKING BREASTFEEDING MOMS FOR A RESEARCH PROJECT

**ABOUT BREASTFEEDING DURATION, INFANTS' SUCKING-
SWALLOWING-BREATHE RATIO AND ECG**

**HELP US IN TESTING A SMART GARMENT
FOR
BREASTFEEDING CARE**

- Florida State University researchers are looking for **BREASTFEEDING** moms to participate in a smart garment test for **BREASTFEEDING** care includes **monitoring** breastfeeding duration, infants' Sucking-Swallowing-Breathe ratio, heart rate and respiration rate. The outcome of this research can be used to further understand feeding efficiency and potential pediatric diseases.
- Each participation involves natural breastfeeding your infants wearing our smart garment in a PRIVATE room located at **FSU Clinical Research and Trials Unit (Located off the main campus)**
- The participation lasts around 4 hours
- For your time you will be compensated with a **\$100 gift card** after experiment

*To obtain more information about the study or to sign-up, please scan the **QR code** or contact the researchers at 850-900-7156 or yz24f@fsu.edu*

This study is being conducted by Dr. Te-yen Wu, Assistant Professor, and Dr. Jessica Ridgway Clayton, Associate Professor, both at Florida State University.
